1. The purpose of this modification is to update the version number of the Netsign CAC Middleware shown under SUBCLIN 0001AA to this contract as follows:

SUBCLIN 0001AA The new version number for the Netsign CAC Enterprise Middleware is 4.0.0.

Some of the features implemented by this new version upgrade include the following:

- (1) Push install of product and patches using SMS and/or MSI and/or other push technology.
- (2) Configurable installation to assist administrators in automating the installation process.
- (3) Remote administration for making changes and updates to the user configuration from the administrator console.
- (4) Silent install with no user interaction required.
- (5) Access to ClearQuest Web for logging and tracking of critical bugs by the DOD.
- (6) Link to feedback web page to allow system administrators and program managers to gather information and requests for new features and product enhancements.
- (7) Advanced diagnostic support to allow program support personnel to gather system information to assist in troubleshooting systems.
- (8) AutoConfigure or Outlook to allow complete configuration at time of install.
- (9) Complete Remote Administration - allowing an administrator to completely set up and maintain all features of the product without having to physically touch the client machine.

2. Compliance testing has been performed by the Joint Interoperability Test Command (JITC) and the product enhancements incorporated by the new version# 4.0.0 does not affect the form, fit or functionality of the CAC Middleware nor its compliance to the CAC Release 1.0 Middleware Requirements Specification, Version 2.2 dated 7 Mar 2002.
